

A.S Tec
Air Solution Technology

Introduction

We A.S Tec “Air Solution Technology” is one of the leading industrial filters firm in Pakistan. Our core business is micron & macron filtration of Air, Gas & Liquid for industrial applications.

A.S Tec is providing industrial filtration consultancy to valuable clients. We are facilitating different types of machinery users in this way. A.S Tec earned a huge experience in the field of fabrication, erection, repair and all kind of maintenance work related industrial air. .

Screw Air Compressor and Refrigerant Air Dryer:-

We deal all kind of new and used screw air compressor, refrigerant air dryer and vacuum pump. (all make & models)

OEM Spare Parts:

We supply / deal many kind of OEM spare parts of various industrial screw air compressors, Vacuum pumps and machineries etc. Periodically replaceable OEM quality, Oil Separators, Oil Filters, Inline Filter and Panel Filters, Couplings, Mechanical Seals, Screw end Element, Bearing etc. for all make and models of screw air compressor i.e. (Atlas Copco, Compair, Boge, Alup, Ingersoll Rand, Sullair, Eco Air, Keaser, Airman, Hitachi etc.) At considerably lesser price.

Compressed air treatment System:

We have a huge range of inline filter housings, inline filter cartridges, water separator differential pressure indicators, gauges, auto drain and other accessories.

Lubricants and Compressor Oil:-

A.S TEC deals all type of lubricants mineral based synthetic based, silicon based for screw air compressor, all industrial oils, Greases & coolant water etc.

Reservoir And Tanks:-

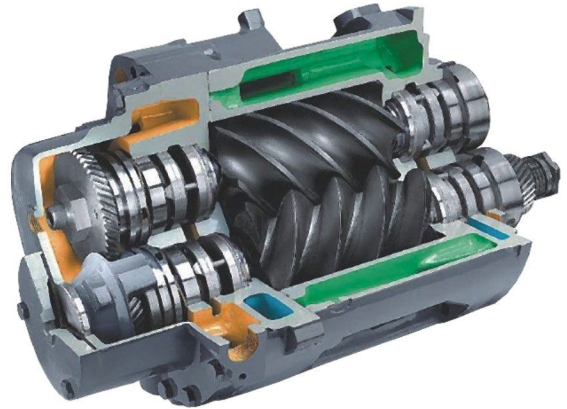

Fabrication of water cooled oil cooler and air reservoirs tanks are available with international industrial standard.

Servicing & Maintenance:-

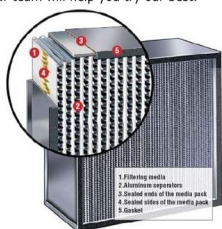

A.S Tec have qualified engineers team with well equipped workshop for provide complete servicing and maintenance of industrial machines, screw air compressor, air dryer and vacuum pumps

- Compressed air system services
- Air compressor maintenance and repairs
- Air dryer maintenance and repairs
- Air filter element changes and drain services
- Condensate management systems and filters
- Ultrasonic leak detection
- Compressed air system audits
- Preventative maintenance plans
- 24 hours service
- Air end refurbishment / overhauling of all brands of compressors

HEPA Filters

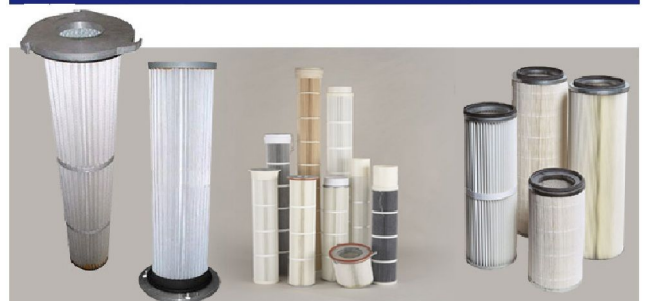

all makes and models of HEPA filters
Including various types of styles, MERV and micron ratings.
Our team will help you try our best.

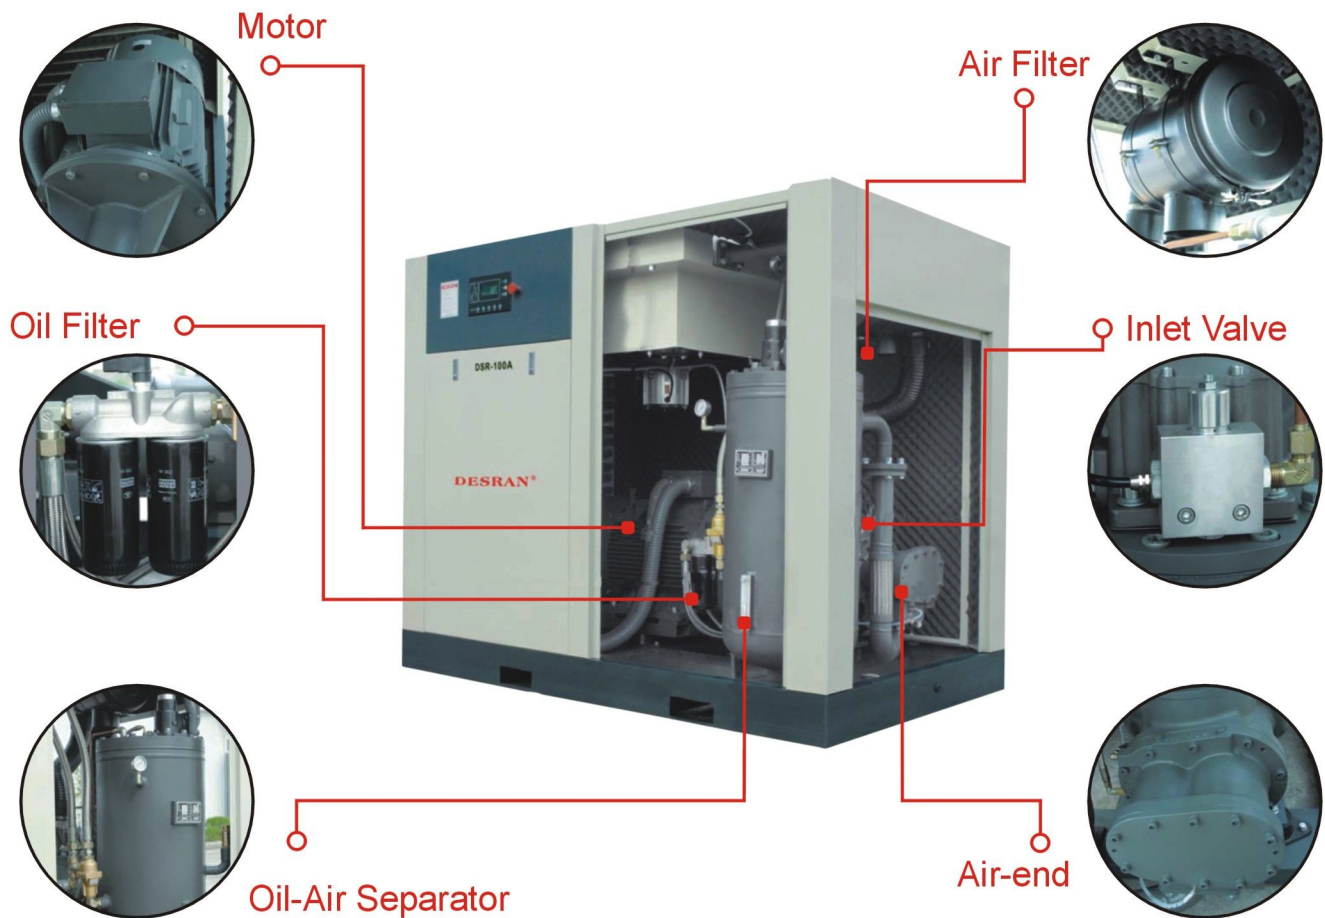

The ultimate
cooling pad
...inside and out!

BAG FILTERS FOR DUST COLLECTION

Screw Air Compressor

Office:

F-1 First Floor, Sohail Center,
63 - Dil Muhammad Road, Lahore.
Tel: 042 - 37117355

Workshop:

Plot # 50, Street # 4, Machine Market,
Sharif Garden, G.T Road, Daroghawala, Lahore.
Tel: 042 - 37014734
